WORK EXPERIENCE

2017 September – December (3 months)

Emergency Supply Chain Coordinator: International Rescue Committee, Cox's Bazar, Bangladesh

- In addition to logistics and supply chain, managed field finance, flight bookings, and hotel accommodation for the first month of the emergency country programme startup phase. Located, rented, and equipped office. Established fleet of vehicles. Designed and oversaw construction of 6 integrated multisector team sites in 6 different refugee camps. Designed and oversaw construction of 2 integrated women's centres, 1 comprehensive women's centre, and 1 primary health post in Kutupalong camp. Designed 4 nutrition stabilisation centres to be built by ACF.

2017 May – July (2 months)

Emergency Supply Chain Coordinator: International Rescue Committee, Aden, Yemen

- Pushed 7 tenders through to completion with enhanced due diligence, worth USD 835,935.00 total. Carried out several trainings for procurement staff, established digital backup system, created supplier database, trained programme staff on how to create purchase requests online. Hired two Supply Chain Assistants to add to the team.

2017 January – April (3.5 months)

Emergency Supply Chain Coordinator: International Rescue Committee, Juba, South Sudan

- Managed international and local procurement and negotiated large donations from WHO and UNICEF. Set up and managed emergency transit warehouse and organised multiple truck and aircraft charters to Ganyiel and Nyal emergency response sites. Assessed Ganyiel and Nyal medical infrastructure deficiencies and developed bills of quantities for facility rehabilitation and health facility water sources, procured relevant supplies in Juba to send to the field and provided technical support to field staff overseeing rehabilitation and setup of nutrition stabilisation centres for the famine response.

2016 September – November (2 months)

Emergency Supply Chain Coordinator: International Rescue Committee, Borno State, Nigeria

- Oversaw international emergency pharmaceutical orders and cold chain equipment procurement. Managed procurement and construction processes for 81m² temperature-controlled medical warehouse, basic maternity, comprehensive women's centre, office compound outbuildings, 20000L water towers with distribution systems, handpump installations, latrine and shower blocks, VSAT installation, and other smaller works.

2016 July – September (2 months)

Emergency Supply Chain Coordinator: International Rescue Committee, Iraq/Syria

- Managed master purchase agreement (framework agreement) tender processes, recommended revised supply chain department organisation chart, drafted a revised local procurement policy, streamlined international pharmaceutical ordering process, trained field staff in bid analysis and other documentation, produced detailed generator and fuel management guidance notes, developed SOP for transporting cargo across Iraq/Syria border.

2016 May – July (5 weeks)

Supply Chain Coordinator: International Rescue Committee, Athens, Greece

- Responsible for day-to-day oversight of IRC Greece supply chain while the regular coordinator was on annual leave. Ensured procurement of goods and services was carried out according to IRC and donor regulations. Clarified procedures and flow of information for high value procurements, diffused useful information to field sites.

2016 March – May (3 months)

Logistics Officer (P3), Rapid Response Mechanism: UNICEF, Bangui, Central African Republic

- Organised over 1.2m USD in stock releases to implementing partners, freeing up warehouse volume needed for other departments, reducing financial risks to UNICEF, preventing claw-backs from donors on expiring grants, and enabling implementing partner organisations to react to crises quickly.
- Increased and improved communication between Rapid Response Mechanism (RRM) and Supply Section, and between RRM and implementing partners, which resulted in fewer errors and more client satisfaction.

2015 September – December (3 months)

Emergency Logistcian: Médecins Sans Frontières, Taiz, Yemen

- Responsible for all logistical aspects of initial setup for the MSF Mother and Child Hospital during an active civil war, including: helping plan the layout of the hospital; upgrading existing electrical and plumbing installations; installing all hospital furniture, medical equipment; design/construction/installation of generator building, hospital waste zone; design and setup of 315m² central medical warehouse; design and setup of Outpatient & Nutrition/EPI Depts, Emergency Room, and Lab; installation of water filtration systems; procurement and installation of comprehensive risk reduction measures including vehicle barriers, pedestrian access control, watchman huts, CCTV.
